

(c) Remarks

In updating the status of the claims on allowance it was determined that the syntax of claim 6 could be improved by providing that the first photosensitive resin layer is laminated by (not “to”) a second photosensitive resin layer on the substrate.

This amendment raises no new issues, necessitates no new search nor requires any material work on the part of the USPTO.

Accordingly, the amendment should be entered.

Applicants’ undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

/Peter Saxon/
